Decoration is creation. With Carisma Italiano, Petraccer's reaches the essence of the ceramic product and turns the necessary modularity of the support into real expression. Twelve positive and negative decoration patterns available in two colors creating a language that is always different, as different are its true and universal voices. Points and lines expand, take different shapes and then change, wander off new directions, each time starting again from scratch to tell a new and unique tale. Drawings establish a deep dialogue with any kind of interior design style. Lines are powerful and plastic, space is used as a musical score. Carisma Italiano is dedicated to who has something interesting to say, and wants to say it through decoration.

Angelo Bellini

La decorazione è creazione. Con Carisma Italiano, Petraccer's giunge all'essenza del progetto ceramico e trasforma la modularità imprescindibile del supporto in potenzialità espressiva. Dodici decori in positivo o negativo su due tonalità cromatiche: un vero e proprio linguaggio, universale ma sempre diverso perché diverse sono le voci. Un punto, una linea, si espandono, prendono e cambiano forma, divagano e ricominciano da capo per raccontare infatti una storia sempre unica, disegni capaci di allearsi e costruire uno stretto dialogo con ogni specifico design d'interni. Plasticità e potenza del segno, per uno spazio da utilizzare come uno spartito. Carisma Italiano è dedicato a tutti coloro che, con la decorazione, hanno qualcosa di interessante da dire.
