CONCRETE

**BAPE**

**CONCRETE**

Al rigore e alla sobrietà del cemento è stato abbinato un materiale di rottura come la **carta**, dal design originale e con tre nuance in cadenza con i colori del cemento.

Una collezione molto particolare che interpreta il cemento come arredo urbano. L'effetto, reso ancora più realistico e suggestivo dal formato **100x100**, è quello di un cemento versato su pavimenti irregolari e successivamente spatolato per dare vita a grafiche casuali e irregolari ma al contempo armoniose.

 L'originalità del marchio Viva su questa collezione è siglato da un accostamento forte ed inatteso.

 La novità della collezione Paper sta nel riconsiderare la carta da una prospettiva verticale. L'accumulo random ed imperfetto di fogli, riviste, libri e cartoncini impilati crea una grafica decisa e originale.

 Presentata nei formati **20x120**, **30x120**, **60x60** e **30x60**, in tre nuance di colori la collezione Paper può essere impiegata sia come elemento decorativo del cemento, dando vita ad ambienti innovativi e ricercati, ma anche in maniera originalissima a pavimento, contestualizzandosi nelle tendenze delle architetture contemporanee più sperimentali.

 La combinazione dei materiali della collezione +3 dà origine ad ambienti innovativi, ricercati e mai visti prima.
